WORKERS' COMPENSATION NURSE II	35	B	10.243
WORKERS' COMPENSATION NURSE I	34	B	10.245

SERIES CONCEPT

Workers' Compensation Nurses apply medical knowledge to the claims review process and ensure quality medical care is delivered for the treatment of industrially injured workers in a timely, cost effective manner which encourages the clients earliest possible return to work.

Review injured worker claim files referred by adjusters for current and anticipated medical needs; conduct interviews with injured worker and/or family members, employer, treating physicians, other relevant health care service providers, and managed care organizations to gather information related to the industrial injury and provide information regarding the claims process.

Assess injured worker needs and appropriateness of the physician's treatment plan; develop and implement a medical management action plan in conjunction with claims adjuster; authorize appropriate medical treatment including surgeries, procedures, diagnostic testing, durable medical equipment, therapy, and home health services; prepare reports including professional recommendations related to present and future medical needs; determine non-industrial medical conditions affecting the industrial condition and refer claim to medical advisor for appropriate apportionment.

Provide ongoing medical management on cases referred and monitor ongoing implementation of the treatment plan; inform medical providers of fee schedule; attend medical appointments with worker as needed; process transfer of primary physician care when appropriate; assess the need for lifetime medical benefits and provide recommendations to adjusters with specific needs outlined and time frames for re-evaluation of benefits; assess discharge plan and ensure specific requirements are met.

Facilitate client's return to work as soon as possible; estimate return to work date; act as a liaison between parties involved in the medical claim including the injured worker, family members, treating physician, therapists, employer of record, employer representative, attorneys, and managed care organizations; coordinate with rehabilitation counselor, employer and health professionals to ensure the clients health condition is addressed in the work environment and facilities are in compliance with federal law.

Provide advice and assistance in the preparation of medical documentation and testimony for hearings and appeals; provide testimony as requested; serve on committees to provide health care knowledge and expertise related to vendor contracts, internal policies and procedures, quality assurance, and other areas as assigned.

Monitor managed care organizations (MCO) medical management practices.

Provide training on medical topics to agency staff.

Perform related duties as assigned.

CLASS CONCEPTS

Workers' Compensation Nurse II: Under direction, incumbents perform all of the duties described in the series concept for the more difficult medical cases, and serve as a lead Workers' Compensation Nurse. Lead responsibilities include providing training and technical expertise to other Nurses in the unit; performing case reviews to ensure the quality and uniformity of medical management; providing input for performance evaluations of unit staff; and in the absence of the unit supervisor, assigning cases and providing direction to unit staff, attending meetings and participating in committees.

Workers' Compensation Nurse I: Under general supervision, incumbents perform the full range of duties outlined in the series concept. This is the journey level in the series.

MINIMUM QUALIFICATIONS

SPECIAL REQUIREMENT:

- * Valid driver's license is required at time of appointment and as a condition of continuing employment.

INFORMATIONAL NOTE:

- * A Bachelor's degree in nursing is equivalent to a diploma or Associate's degree in nursing and one year of experience.

WORKERS' COMPENSATION NURSE II
